

# New Flexible LED Lighting

## EXTRA TOUGH WATERPROOF FULLY SEALED FLEXIBLE STRIP

- ◆ Full all-round sealing for greater protection against water immersion
- ◆ Rectangular harder sealing provides greater resilience in common usage.
- ◆ 2 Selections of intensity: 30LEDs/m or 60 LEDs/m
- ◆ Applications: Walkways & contours marking, architectural, events lighting
- ◆ White (6000K), Warm White (3000K), RGB

Type	Power per m
30LEDs/m	6.5W 24VDC 0.27A
60LEDs/m	13.5W 24VDC 0.54A

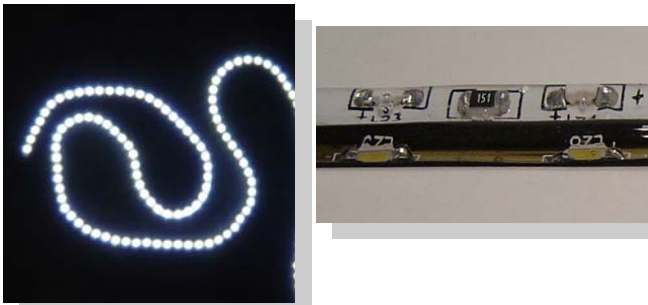

## EXTRA FLEXIBLE IP67 WATERPROOF STRIP

- ◆ Extra flexibility - bending to small radius (10mm)
- ◆ Extra Flexibility for frequent re-installation
- ◆ IP67 Waterproof tubing provides greater protection for LEDs
- ◆ Connection up to 10M maximum run
- ◆ RGB SMD high brightness LEDs to emit all colours
- ◆ 10-LEDs per 250mm units
- ◆ 140° viewing angle
- ◆ 14.1mm x 4.8mm tubing
- ◆ Silicon brackets for mounting.

Type	Power per m
40LEDs/m	9.6W/m (white) 24VDC 0.4A

## Contour Profiling Side View Flexible Strip

- ◆ With IP65 waterproof sealing and Non-Sealed options
- ◆ LEDs are side emitting
- ◆ Suits bending strip to meet outline or profile
- ◆ 5mm width; 5m/reel
- ◆ 30LEDs/m or 60 LEDs/m
- ◆ DC12V and DC24V options
- ◆ 3M self adhesive tape for mounting
- ◆ For contours marking, light art, edge-lighting etc
- ◆ White, Warm White, Red, Yellow, Green, Blue

## Non-Sealed 8mm Flexible Strips for under cabinet lighting

- ◆ Non-sealed flexible for concealed lighting
- ◆ Small bending radius of 5mm
- ◆ 3-LEDs in 8mm x100mm units
- ◆ 12VDC in 5m reels
- ◆ RGB SMD High brightness LEDs
- ◆ 3M self adhesive tape for mounting
- ◆ Up to 5m length runs
- ◆ Can use with RGB colour controller
- ◆ Application: Kickboard & under cabinet lighting
- ◆ Backlighting for light boxes
