

# Solid State Lighting Solutions

## Light Panels

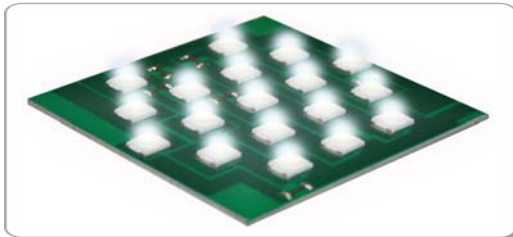

Edge Lit LED Light Panel System  
for Signs and Backlighting

## LED Light Strips

## Muti-Watt LED Light engines

## Flexible Light

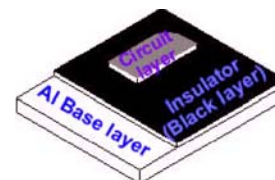

We can provide many solutions in LED Lighting

- ◆ LED Lighting mounted in Aluminum Reflector
- ◆ Flexible LED strips
- ◆ LED strips for Edge & Backlighting
- ◆ Light Panel System
- ◆ Multi-Watt LED Light Engines for luminaries
- ◆ Constant Current smart drives
- ◆ Aluminum Substrates for Thermal Management

We can provide the assemblies to suit your applications complete with:

- ◆ Electronic Design
- ◆ LEDs and Drivers
- ◆ Photometric Panels
- ◆ Manufacturing & Assembly
- ◆ Turnkey Engineering

## Custom Solutions

Customised LED Solutions on Aluminium PCB for effective & efficient thermal management
